This list is intended to assist ordering physicians in providing ICD-10 Diagnosis Codes as required by Medicare and other Insurers. It includes the most commonly found out-patient diagnoses (generally without complications), but is not complete.

This list was compiled from the ICD-10-CM 2015, as well as the Medicare Regulations and Manuals issued or authorized by the Centers for Medicaid and Medicare Services. An ICD-10-CMS book should be used as a complete reference. The ultimate responsibility for correct coding belongs to the ordering physician.

** Due to the specificity required for ICD-10 coding, we are unable to provide a one to one translation. The ICD-10 CMS book or the following website should be used as a complete reference: <http://www.cms.gov/Medicare/Coding/ICD10/2014-ICD-10-CM-and-GEMs-.html>
