

## ADC 2026 Dermpath Cup Answer Key – Set 1

1. acanthosis nigricans
2. pityriasis lichenoides acuta (Mucha-Habermann disease)
3. leiomyoma
4. angiosarcoma
5. hypertrophic scar
6. dermatitis herpetiformis
7. graft-versus-host disease
8. juvenile xanthogranuloma
9. lichen planus
10. granuloma annulare
11. scabies
12. pigmented spindle cell nevus
13. mycosis fungoides
14. normal nipple
15. desmoplastic trichoepithelioma
16. mastocytosis
17. blastomycosis
18. pityriasis rubra pilaris
19. erythema elevatum diutinum
20. secondary syphilis
21. syringocystadenoma papilliferum
22. trichofolliculoma
23. clear cell acanthoma
24. polymorphous light eruption
25. giant cell tumor of tendon sheath

26. leishmaniasis
27. ruptured follicular cyst
28. steatocystoma
29. dermatofibroma
30. pemphigus vulgaris
31. ochronosis
32. lichen planopilaris
33. apocrine hidrocystoma
34. desmoplastic malignant melanoma
35. pustular psoriasis
36. recurrent melanocytic nevus
37. epidermolytic acanthoma
38. accessory tragus
39. mucocele
40. halo nevus
41. elasticum
42. elastosis perforans serpiginosa
43. scleromyxedema
44. nodular amyloidosis
45. microcystic adnexal carcinoma
46. Rosai-Dorfman disease
47. epithelioid sarcoma
48. hidradenoma papilliferum
49. trichotillomania
50. erythema induratum of Bazin

## ADC 2026 Dermopath Cup Answer Key – Set 2

51. lipodermatosclerosis
52. alopecia areata
53. granuloma faciale
54. cryoglobulinemia, type I disease
56. amalgam tattoo disease
58. Hailey-Hailey disease
59. pemphigus foliaceus
60. porphyria cutanea tarda
61. Kaposi's sarcoma
62. radiation dermatitis
63. Becker's nevus
64. dermatofibrosarcoma protuberans
65. verruca plana
66. perforating disorder
67. chondrodermatitis
68. syringoma
69. Bowen disease
70. porokeratosis
71. Spitz nevus
72. cautery artifact
73. nephrogenic fibrosing dermopathy
74. melanoma in situ
76. leukemia cutis
77. liposarcoma
78. bullous pemphigoid

79. glomus tumor
80. subcutaneous fat necrosis of newborn
81. calcinosis cutis
82. osteoma cutis
83. tattoo reaction
84. coccidiomycosis
85. schwannoma
86. neurofibroma
87. supernumerary digit
88. acquired digital fibrokeratoma
89. endometriosis
90. eccrine poroma
91. malignant melanoma (nodular)
92. basal cell carcinoma with freeze artifact
93. necrobiosis lipoidica
94. polyarteritis nodosa
95. eruptive xanthoma
96. Langerhans cell histiocytosis
97. herpesvirus infection
98. fixed drug eruption
99. lichen nitidus
100. necrolytic migratory erythema

### **ADC 2026 Dermopath Cup Answer Key – Set 3**

101. gout
102. erythrasma
103. reticulohistiocytic granuloma
104. tinea versicolor
105. calciphylaxis
106. erythema nodosum
107. nodular fasciitis
108. leukocytoclastic vasculitis
109. digital myxoid pseudocyst
110. coma blister
111. warty dyskeratoma
112. scleroderma/morphea
113. pyogenic granuloma
114. pityriasis rosea
115. nevus sebaceus
116. lymphangioma
117. incontinentia pigmenti
118. atypical fibroxanthoma/superficial MFH
119. Paget disease
120. supernumerary nipple
121. balloon cell nevus
122. cellular blue nevus
123. xanthelasma
124. palisaded and encapsulated neuroma
125. nodular hidradenoma

126. granular cell tumor
127. cell carcinoma
128. metastatic breast carcinoma
129. lupus erythematosus
130. erythema annulare centrifugum (EAC)
131. lichenoid drug eruption
132. pretibial myxedema
133. rheumatoid nodule
134. suture granuloma
135. cryptococcus infection
136. chromomycosis
137. fibrous papule
138. lichenoid amyloidosis (lichen amyloidosis)
139. sebaceous carcinoma
140. trichilemmoma
141. angioleiomyoma
142. chondroid syringoma
143. basal cell carcinoma, infiltrating
144. cylindroma
145. Sweet syndrome
146. lymphomatoid papulosis
147. lichenoid keratosis
148. granular parakeratosis
149. metastatic renal cell carcinoma
150. congenital nevus
